DETAILED ACTION

Election/Restrictions

The examiner notes that many of the recited claims include limitations related to not just a Eu-doped CsBr-type storage phosphor screen, but also to several methods of producing a CsBr:Eu stimuable phosphor and several methods of producing a binderless storage phosphor screen. It is noted that while these claims have been rejected under 35 USC § 112, they may also be related as separately patentable inventions that would be subject to restriction if the claims were otherwise proper. As such, the applicant should be aware that any amendments to the claims may result in a subsequent restriction requirement or an election by original presentation. The examiner notes that the current invention has been deemed to be directed to an apparatus.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-75 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1, the examiner is unclear as to what structural limitations of the CsBr:Eu stimuable phosphor are being claimed, namely what structure is implied by the pretreatment of short ultraviolet radiation in the range of 150nm to 300nm have on the structure of the CsBr:Eu stimuable phosphor.

The balance of the claims are rejected based on their dependencies.

Note: Due the considerable speculation and uncertainty regarding the proper interpretation of claim 1, no prior art rejections are being made at this time. As stated in *In re Steele*, 305 F.2d 859, 134 USPQ 292 (CCPA 1962), a rejection under 35 U.S.C. 103 should not be based on considerable speculation about the meaning of terms employed in a claim or assumptions that must be made as to the scope of the claims. See MPEP 2173.06.
